(54) Title: A METHOD AND A SYSTEM FOR PACKAGING OBJECTS IN TUBULAR FILM

(57) Abstract: The invention relates to a method and a system for packaging at least one object in film (1), wherein the film is tubular and preferably made of plastics. Novel aspects of the invention comprise that a piece of film is prepared with a number of wrinkle-shaped folds, following which the piece is processed to bag-shape by welding of the film and cutting it off the remaining part of the film, following which the bag-shaped film with folds is arranged to receive the object, following which the object is introduced interiorly of the film.
